

Information about the EU Regulation (EC) No 1907/2006 (REACH)

To whom it may concern,

REACH refer to the regulation (EC) No 1907/2006 concerning the **Registration, Evaluation, Authorisation and Restriction of Chemicals**. Most of those chemical substances manufactured or imported into the European Union must be pre-registered by the European Chemicals Agency, which manages the technical, scientific and administrative aspects of this regulation.

REACH primarily addresses to companies manufacturing or importing chemical substances.

Kabelwerke Villingen GmbH (KWV) does not itself produce raw chemical materials but purchase them to be used in the course of its industrial activities, relating to what the company shall be regarded as a “downstream user.” As stated by REACH it is not provided registering manufactured articles.

After thorough conversations with our suppliers of raw materials and based on current state of knowledge we may assume that all materials used in the goods production are preregistered and therefore qualified for further applications.

According to this only registered materials are used in the manufacturing of our products, **and referring to the latest version of the Candidate List of Substance of Very High Concern (SVHC) identified within the REACH (updated on November 05, 2025)** we inform you that we exclusively purchase materials and article, with no content of worrying substances.

In the incoming months we will make sure to manage furthermore verifications with the suppliers relating to the compliance with the regulation named previously.
